

SAINT ANDREW'S CHAPEL

A Reformed Congregation

March 20, 2020

Dear Saint Andrew's Family,

The Session of Saint Andrew's Chapel met this week to review the latest information regarding the coronavirus (COVID-19), and we have closely monitored the latest recommended directives from our president, Florida's governor, and the Centers for Disease Control and Prevention (CDC). With this rapidly changing situation, we as elders have remained in regular contact to discern how best to serve you and our community as we strive to honor our Lord during this time.

We are encouraged how many of you joined us last Sunday for worship through the livestream or in attendance at our morning and evening worship services, with more than 2,000 participants joining us in the morning and more than 400 in the evening.

At this time and until further notice, on account of the directives from our president, Florida's governor, and the CDC to avoid gatherings of more than ten people, the Session of Saint Andrew's Chapel has decided to hold online only livestream Lord's Day worship services at 10:00 am and 5:00 pm. We encourage you to join us through the livestream worship services from your homes. The links to the livestream worship services, along with the orders of worship services and hymns, will be sent to you by email on Saturdays and will also be posted on our website, www.sachapel.com. Please keep in mind that this livestream option is being offered only during this unique season of heightened concern on account of the directives of our governing authorities related to the coronavirus.

The Session has also decided to cancel all weekday events taking place at the church facilities. Offsite groups and studies are encouraged to follow the current guidance of the CDC and, if desired, to connect with one another in homes or by other virtual means. Additional prevention steps from the CDC can be found [here](#), and recommendations for older adults and those with chronic medical conditions can be found [here](#). Please consult your doctor or a medical professional with any questions or concerns related to your health.

Thank you for your patience and understanding as we strive to serve you and glorify God. Let us continue to pray to our sovereign and gracious God for all those affected by the coronavirus (COVID-19). Let us remember to pray for our governing authorities and agencies, first responders, and the entire medical community throughout our nation and around the world.
